South Asia: Imported scrap prices remain range-bound; Turkish market holds steady

Jul 07, 2026 19:18

India, Pakistan show need-based buying amid weak demand Turkish scrap prices stabilise as freight supports market floorSouth Asia's imported ferrous scrap markets remained subdued on 7 July, as weak steel demand, poor import economics and cautious mill buying continued to limit fresh bookings across India, Pakistan and Bangladesh. Meanwhile, Turkish deep-sea scrap prices stabilised amid limited trading activity and higher freight costs.India: Imported ferrous

India: Silico manganese export prices ease w-o-w as higher freight weighs on market sentiment

Jul 07, 2026 18:32

65-16 grade prices inch down by \$4/t w-o-w Export headwinds persist for prices amid rising freightsIndian silico manganese export prices edged slightly lower in the week ended 6 July 2026, as rising ocean freight costs, carrier surcharges, and container shortages continued to weigh on export sentiment. Market participants attributed the higher logistics costs to peak-season demand, tighter vessel capacity, and increased bunker fuel surcharges, which ha

India: BigMint's billet index declines further as lower offers spur selective buying

07 Jul 2026

BigMint's billet index declined by INR 300/t d-o-d to INR 38,000/t exw-Raipur on 7 July 2026, as producers lowered spot offers to stimulate buying amid subdued market sentiment. Although the price correction resulted in a modest improvement in billet bookings, overall trading activity remained constrained by weak downstream demand and cautious procurement by buyers.

Lower billet offers encouraged selective purchases during the session, with some buyers taking advantage of the correction to replenish immediate requirements. However, procurement remained measured as weak finished steel demand over the past few days prompted market participants to adopt a wait-and-watch approach. Buyers largely refrained from bulk bookings, preferring to monitor downstream offtake before committing to fresh semi-finished steel purchase.

Sentiment also remained under pressure due to weaker cues from neighbouring markets and competitively priced material from nearby producers. These factors continued to influence local pricing, compelling billet producers to adjust offers to remain competitive in the spot market.

Finished steel prices weaken further

The finished steel market remained sluggish in Raipur, with both rebar and wire rod prices declining by INR 300/t d-o-d. Tepid demand from distributors and end-users continued to weigh on the long steel segment, limiting procurement by rerollers and reducing support for billet demand.

Sponge iron prices correct to attract buyers

Sponge iron prices in the Raipur cluster also declined by INR 300/t d-o-d as producers reduced

offers to attract buying interest. The lower prices resulted in an improvement in bookings compared with recent sessions.

The conversion spread between pellet-based direct reduced iron (PDRI) and billets for standalone induction furnaces in the Raipur cluster was assessed at INR 14,900/t.

Rationale

This index is derived based on transactions, offers, bids, and indicative price data sets. Transactions are considered T1 and given a weightage of 50%, whereas other data sets are considered as T2 and given a weightage of the balance 50%.

Transactions (T1) - Three trades at INR 38,000/t were recorded during the 10:30 am to 5:30 pm BigMint trading window and considered for final price calculation as T1 inputs. The average of these transactions was INR 38,000/t, which was given a 50% weightage in the final price calculation.

Other price indicators - bids/offers/indicatives (T2) - Seventeen offers were reported in the trading window and considered as T2 inputs. The average price of these seventeen was INR 38,035/t and given a 50% weightage in the final price calculation.

The final price of billets was INR 38,017/t exw-Raipur, rounded off to INR 38,000/t exw.

From BigMint Team - While it would be our earnest endeavour, at BigMint, to bring about transparent and unbiased price index reporting, we would request all our readers and subscribers for their feedback and if they could participate in the reporting of more transactions.
